#489104

State whether true or false:

Jhum cultivators plough the land and sow seeds.

Solution

False

#489287

What is shifting cultivation? What are its disadvantages?

#489288

What is plantation agriculture?

Solution

Plantations are a type of commercial farming where a single crop of tea, coffee, sugarcane, cashew, rubber, banana or cotton is grown. A large amount of labor and capital are required. The produce may be processed on the farm itself or in nearby factories. The development of a transport network is thus essential for such farming. Rubber in Malaysia, coffee in Brazil, tea in India and Sri Lanka are some examples.

#489298

Distinguish between the followings.

Subsistence farming and intensive farming.

#492256

In which one of the following states is terrace cultivation practised?

- A Punjab
- B Plains of Uttar Pradesh
- C Haryana
- D Uttaranchal

Solution

- Answer is UTTARANCHAL.
- Uttaranchal is a 86% mountainous region.
- **TERRACE** is a piece of sloped plane that has been cut into a series of successively receding flat surfaces or platforms, which resemble steps, for the purposes of more effective farming. This type of landscaping, therefore, is called **terracing**.
- TERRACE CULTIVATION is the practice of cutting flat areas out of a hilly or mountainous landscape in order to grow crops.
