D Madhura

SOLUTION

Vishwanth temple which is one of the most famous temples of India is located in Varnasi which was previously called Kasi.

This temple was built in the year 1780 by Ahilyabhai Holkar. This temple is located to lord Shiva. This temple stands on the western banks of river Ganga.

and are examples of archaeological sources. his question has multiple correct options		
A	Monuments	
В	Writings	
С	Legends	
D	Inscriptions	

SOLUTION

The Archaeological Source can be divided into three groups, namely, Archaeological Remains and Monuments, Inscriptions and Coins.

Archaeological Remains and Monuments: They are subjected to scientific examination of radio-carbon method for its dates.

Inscriptions: They are seen on rocks, pillars, stones, slabs, walls of buildings, and body of temples. The most famous inscriptions are of Ashoka.

Coins: Some of the coins contain religious and legendary symbols which throw light on the culture of that time. Some also contain the figures of kings and gods.

Q.4.

After the arrival of the _____ in India, the writing of history was, naturally, profoundly affected.

A	Dutch	
В	Portuguese	
C	French	
D	British	
desc bene freed	nistorian started giving a philosophical touch to every event he ribed. This was termed History. Every incident was narrated in a way ficial to the writers. For ex: the British, while writing, projected all the om struggles as mutiny or riots. But the Indian writers rejected them utiny and instead called them a struggle for independence.

SOLUTION

Monuments and Inscription are two archaeological souces of information. Archaeological sources include buildings, houses, pottery, seals, coins, monuments, writings and paintings on stones or walls, tools, jewellery, bones, leftovers, pieces of metals and other artefacts. Monuments are old buildings or other old structures which are important for their historic connection or legacy and inscriptions are writings on seals, temple walls, stones or pillars, wooden tablets, bricks and images.

Q.10. Describe the Archaeological excavation of Mehrgarh.

A	They mainly cultivated barley and wheat
В	Mud -brick structures found
С	They made pottery on wheel
D	All of the above

SOLUTION

Archaeological excavation of Mehrgarh has revealed that the earliest settlers were involved in domestication of animals and agriculture. They mainly cultivated barley and wheat. Many mud - brick structures, which are compartmented, have been discovered at Mehrgarh. Most likely they were granaries. During the early period these people used stone tools. Polished stone - axes, flint blades and pointers have been found from this site.
